SUMMARY

Ambitious Software Engineer and a fresh graduate in BCA, overwhelming desire for continuous learning. Proficient in modern web and mobile development technologies like React, Node.js, and Firebase. Eager to get hold of new challenges and apply fresh ideas to software projects that drive innovation.

PROJECTS

SOS Game | React Native • Expo • Tailwind CSS | JULY 2024

Github - <https://github.com/RameesJahan/SOS-Game-React-Native>

- I developed SOS Game, a multiplayer mobile version of the classic pencil-and-paper game, featuring 2 to 6 players, customizable nicknames, and adjustable board sizes.
- Key Achievements:
 - Implemented local storage for user-generated data.
 - Developed a fully functional multiplayer game with customizable settings.

Pomodoro Timer App | React Native • Expo | JULY 2024

Github - <https://github.com/RameesJahan/pomodoro-timer-react-native>

- The Pomodoro Timer App is an Android productivity tool built with React Native and Expo. It helps users manage their time using the Pomodoro Technique, featuring:
 - Customizable work and break timers
 - Background operation for uninterrupted sessions
 - Push notifications using Expo's notification system
 - User-friendly interface with progress tracking

Chat App | ReactJS • Tailwind CSS • Firebase | JAN 2024

Github - <https://github.com/RameesJahan/chelakkedo>

- Developed a real-time messaging app with ReactJS and Tailwind CSS frontend.
- Firebase Firestore backend for message storage.
- Implemented Firebase Authentication for secure phone number verification.
- Users can send text messages in real-time.

E-Commerce API | NodeJS • ExpressJS • MongoDB | APRIL 2023

Github - <https://github.com/RameesJahan/FillKart-Api>

- Developed an E-commerce API using Node.js, Express.js and MongoDB.
- Endpoints:
 - Retrieve list of all products.
 - View detailed information about a specific product.
 - List available product categories.
 - Filter products by category.

SKILLS

PROGRAMMING LANGUAGES | Java
• JavaScript/TypeScript • Python

MOBILE DEVELOPMENT | React-Native • Android

FRONT END | NextJS • ReactJS • HTML • CSS • Tailwind CSS • Shadcdn

BACK END | NodeJS • ExpressJS

OTHERS | Git • MongoDB • Amazon AWS • Firebase

SOFT SKILLS | Adaptability • Teamwork • Active Listener

EDUCATION

Bachelor of Computer Applications

SAFI Institute of Advanced Study
March 2024 | Kerala, India

COURSEWORK

Web Development
Android Development
Machine Learning
Data Structure and Algorithm

CERTIFICATES

React Bootcamp by Scaler

Industrial training based course on problem solving using Deep Learning by MaiTexa

LANGUAGES

Malayalam
English

INTERESTS

Technology • Self-Improvement
• Video Games • Travel
